Analyzing the Psychological Depth of Short Stories Written by Al vs. Humans Thank you for your interest in participating in our study!

The primary aim of this research is to explore and annotate stories for elements of psychological depth and determine whether these stories were crafted by artificial intelligence or human authors. By participating, you will be contributing to our understanding of human perception and the capabilities of modern AI.

Selected candidates will be contacted for further instructions. Kindly fill out the form below, and we will review your submission. Expect a follow-up from us within a few days.

My name is Fabrice Harel-Canada (fabricehc@cs.ucla.edu) and I'm a PhD candidate in the Computer Science department at UCLA. I am conducting this study under the direction of Professor Miryung Kim, Professor Amit Sahai, and Assistant Professor Violet Peng.
